G. OLD BUSINESS:

Project Updates

1. Gold Dust / Chapel Oaks Project

Mr. Wappelhorst reported, we are currently working on the bank stabilization model determining possible solution that will not raise the flood levels. And submitting to MSD and the Core of Engineers by month's end for their approval of the plans.

2. Clayton Terrace Garibaldi Arthur Storm Water Project

The City has entered into contract with Gershenson Construction and has completed the pre-construction meeting. We hope to start construction in October. We have also completed the plans for the storm water work at 10910 and 10928 Clayton Rd. to be added to this project due to existing extreme water shed issues crossing both properties. We hope to have easement signatures from the owners soon to be able to proceed.

3. Steeplechase

The design has been submitted to MSD and we plan to start collecting easement signatures soon.

4. Timber Trail/Briar Ridge/Timberwyck Storm

We're wrapping up the geomorphic study for the project water shed and erosion calculations. Also, have been working with Missouri Department of Natural Resources for the DNR 319 grant supporting the project in process and start preliminary design in September.
